Sheridan House for Boys...

Same needs, greater area!

SHERIDAN HOUSE Honoring Christ by Serving the Needs of Children and Families

Sheridan House for Boys

Is your child struggling with behavioral difficulties including:

- School Suspensions
- Failing Grades
- Disruptive Family Behavior
- Immaturity
- Acting-Out
- Impulsivity
- Defiance and/or Disrespectful Behavior
- Procrastination
- Poor Attitude

Same needs, greater area! In addition to our 5-day residential program, Sheridan House now offers a 7-day program for children from all over the country.

The Sheridan House Residential Program is designed to intervene in the life of a family before dysfunctional behavior becomes a habitual lifestyle. For boys in 6th-10th grade, our objective is to provide the structure and environment that helps them accept responsibility for their behavior at home and school while developing essential life skills. For the boys, being in Sheridan House represents a fresh start rather than a punishment, as we strive to help them become the best version of themselves. For the parents, our desire is to equip and educate them so they can help their son graduate from the program and return home successfully. Our deepest hope is that during this process each family member will know Jesus Christ as their Lord and Savior and experience the personal love that God has for every one of them.

Each house is staffed with House Parents and a Behavior Specialist.

Sheridan House provides a strong family environment for the boys and intensive training for the parents. While boys who locally can return home every weekend, Sheridan House now has the capacity for those who do not live locally to remain on campus during the weekends. All boys

return home during extended breaks from school. This time at home provides the boys and their parents opportunities to practice the skills they are taught. Each house is staffed with House Parents and a Behavior Specialist. Academic education is provided on campus in a structured home-school setting, with the goal of helping the boys learn appropriate classroom behavior. While boys work at their own pace through the program, the average length of stay is 10-12 months.
